Team Builds

Let NAC give your employees a chance to have a safe, challenging, and *FUN* team building experience at our climbing facility. Our team-building program will challenge your employees to work together, communicate, and trust each other in new and exciting ways.

What is Included

Group members will check in, sign waivers, and assemble in the café to discuss goals for the day. They will then be escorted to the climbing area and be fitted with the appropriate climbing gear. Members begin with a safety review, where they will be given the NAC safety class to learn proper belaying technique. Then...

- **Small team challenge:**
 - Members pair off and climb routes that require intense communication between partners. They will then switch partners and repeat.
- **Break and Review:**
 - Group will assemble in the café for refreshments and discussion of what was learned. Lunch packages are available from our café.
- **Large Group Challenge:**
 - NAC staff will propose a variety of large group challenges for the last part of the day. The group decides which event's they would like to take on.
